

2021 TRAILS MANITOBA GRANT PROGRAM

YEAR IN REVIEW

Treaty 1 (@kristelkernaghan)

GENERAL INTRODUCTION

Trails MB Land Acknowledgement

The trails in Manitoba are located on the original lands of the Anishinaabe, Cree, Oji-Cree, Assiniboine, Dakota and Dene Peoples, and the homeland of the Métis Nation.

We respect the Treaties that were made on these territories, we acknowledge the harms and mistakes of the past, and we dedicate ourselves to move forward in partnership with Indigenous communities in a spirit of reconciliation and collaboration.

We encourage all trail users to learn more about the land that they are travelling on.

Funders / Partners

Trails Manitoba is proud to partner with the Province of Manitoba and The Winnipeg Foundation by offering two recreational trail grants: *Trails Grant for Manitoba* and *Trails Grant for Winnipeg*. These two grant programs represent an investment of \$9 million from the Province of Manitoba, for the development and enhancement of recreational trails throughout Manitoba. The grants will assist in making recreational trails attractive and inclusive destinations for Manitobans and visitors alike, in celebration of the peoples, communities and landscapes that this province has to offer.

Treaty 3 (South Whiteshell Trail Association)

Treaty 3 (Samantha Betker)

Trails Grant Streams

- 1. Trails Grant for Manitoba** – The funds for the *Trails Grant for Manitoba* arise from interest from a \$4M endowment, with total annual disbursements estimated between \$180,000 to \$240,000. While this specific funding and grant program will continue in perpetuity, an additional \$2.5M provided by the Province of Manitoba (estimated allocation of \$600,000 per year) has been allocated to the program until 2025. Approved projects are expected to be completed within 2 years. This grant is intended for trail associations, municipalities, or other not-for-profit groups, that have the means to provide continued stewardship of trails. Grant applications solely for trail maintenance may receive greater flexibility with regards to matching requirements. Maintenance Grants will be prioritized based on location (rural vs. urban) and available support (i.e. city-based funding for trail maintenance).
- 2. Trails Grant for Winnipeg** – The *Trails Grant for Winnipeg* is an annual grant with an estimated allocation of \$500,000 per year. \$2.5M of provincial funding has been allocated to this program. The last intake for this grant is set for 2025. This grant is largely intended for trail associations, the City of Winnipeg, or other not-for-profit groups, that have the means to provide continued stewardship. Approved projects are expected to be completed within 2 years.

Building Community Support

“ Trails Manitoba understands that advanced trail systems have the power to change entire communities. The funding that we received helped us take our vision and develop a master plan that we could share with our community. This enabled us to raise an incredible amount of enthusiasm and support for our project (1.1 million dollars). We’re excited to see the development of trail networks across the province which promotes tourism throughout Manitoba. Trails MB is an essential partner in creating quality trail networks and the benefit of their funding will be evident for many years to come. ”

A photograph of a dirt trail winding through a forest. The trail is made of light-colored gravel and dirt, leading into the distance. The forest is composed of various trees, including tall evergreens and deciduous trees with some autumn-colored foliage. The lighting suggests a bright day with shadows cast across the path.

Trails Manitoba would like to acknowledge the significant contributions made by volunteers across the province. Thank you for your continued efforts in growing our trail network and trail community!

We would also like to recognize Trails Manitoba staff and volunteers for their contributions with the development and continued management of this grant program.

The long-term benefits of this program will enable trail associations, municipalities, and people dedicated to the stewardship of recreational trails to foster a trail system that will be enjoyed now, and by future generations to come!
