2024 TRAILS MANITOBA GRANT PROGRAM YEAR IN REVIEW 🗦

TRAILS MB LAND ACKNOWLEDGEMENT

The trails in Manitoba are located on the original lands of the Anishinaabe, Cree, Oji-Cree, Assiniboine, Dakota and Dene Peoples, and the National homeland of the Red River Métis.

We respect the Treaties that were made on these territories, we acknowledge the harms and mistakes of the past, and we dedicate ourselves to move forward in partnership with Indigenous communities in a spirit of reconciliation and collaboration.

We encourage all trail users to learn more about the land that they are travelling on.

Treaty 2 (Northgate)

FUNDERS / PARTNERS

Trails Manitoba is proud to partner with the Province of Manitoba and The Winnipeg Foundation by offering two recreational trail grants: *Trails Grant for Manitoba* and *Trails Grant for Winnipeg*. These two grant programs represent an investment of \$9 million from the Province of Manitoba, for the development and enhancement of recreational trails throughout Manitoba. These grants assist in making recreational trails attractive and inclusive destinations for Manitobans and visitors alike, in celebration of the peoples, communities, and landscapes that this province has to offer.

TRAILS GRANT STREAMS

1. TRAILS GRANT FOR MANITOBA

The funds for the *Trails Grant for Manitoba* derive from interest from a \$4M endowment, with total annual disbursements estimated between \$180,000 to \$240,000. While this specific funding and grant program will continue in perpetuity, an additional \$2.5M provided by the Province of Manitoba (estimated allocation of \$600,000 per year) has been allocated to the program until 2025. Approved projects are expected to be completed within 2 years. This grant is intended for trail associations, municipalities, or other not-for-profit groups, that have the means to provide continued stewardship of trails. Grant applications solely for trail maintenance may receive greater flexibility with regards to matching requirements.

2. TRAILS GRANT FOR WINNIPEG

The *Trails Grant for Winnipeg* is an annual grant with an estimated allocation of \$500,000 per year. \$2.5M provided by the Province of Manitoba has been allocated to the program until 2025. This grant is largely intended for trail associations, the City of Winnipeg, or other not-for-profit groups, that have the means to provide continued stewardship. Approved projects are expected to be completed within 2 years.

A small portion of these funds (referred to as Part 1) have been designated for projects specific to the Trans Canada Trail within Manitoba Provincial Parks, ensuring targeted investment in these key trail areas.*

6. OVERVIEW OF GENERAL IMPACTS

- Surge in community collaboration to enhance overall quality of life.
- Improved trail systems lead to greater access for healthy outdoor activities.
- Increased opportunities for family & community gatherings.
- Projects led to stronger relationships with local Indigenous groups.
- Connects residents & commercial businesses to A.T. network.
- Encourages people to be active outdoors year-round.
- Improved wayfinding encourages exploration with confidence.
- Increased access to those with physical abilities.
- Children are more motivated to be outdoors with development of trail nodes.
- New trailheads have led to purpose built gathering areas.

- Projects support local citizens and local businesses.
- Increased draw to the region.
- Events & activities make use of trails to increase visitation & revenue.
- Improved access to community businesses & restaurants.
- Trails boost foot traffic in urban areas.
- Expected increase to local tourism.
- · Increased visitation to access trails.
- Trail development has led to opportunities for other businesses.
- Widespread community support and investment.
- Materials were locally sourced.
- Increased appeal to the area for residents to live & recreate.
- Community engagement surrounding trails has led to increased involvement – supporting local!

- Improved signage & waste management reduces litter in the area.
- Increased foot traffic vs. vehicular traffic.
- Lighter, multi-function groomer covers more ground with fewer passes.
- Mowing adjusted to support wildflower growth.
- Trailhead incorporates EV charging stations, creating reasons to visit.
- Trail improvements protect sensitive areas by keeping users on the trail.
- Signage materials used are built to last.
- Project involved cleanup of deadfall to minimize forest fire fuel.
- Maintained trails lead to increase in active transportation.
- Trails turn 'brown spaces' into 'green spaces!'

^{*}Numbers represent completed projects since the last annual report, regardless of year initiated.

GRANT PROGRAM OBJECTIVES & GOALS

TRAILS GRANT FOR MANITOBA OBJECTIVES

- 1. Provide new recreational trail opportunities which includes extending or improving existing trails, developing new trails, and addressing trail gaps and barriers.
- 2. Improve the quality of the existing recreational trail network or the user's experience including safety improvements, signage, wayfinding, and barriers to access.
- **3.** Maintenance of the recreational trail network, including pruning, repairing holes, trail beautification, normal erosion/drainage repairs, clean-up, usual repairs (signage, barriers, fencing, surfacing) and other maintenance tasks that are undertaken for upkeep of a trail.

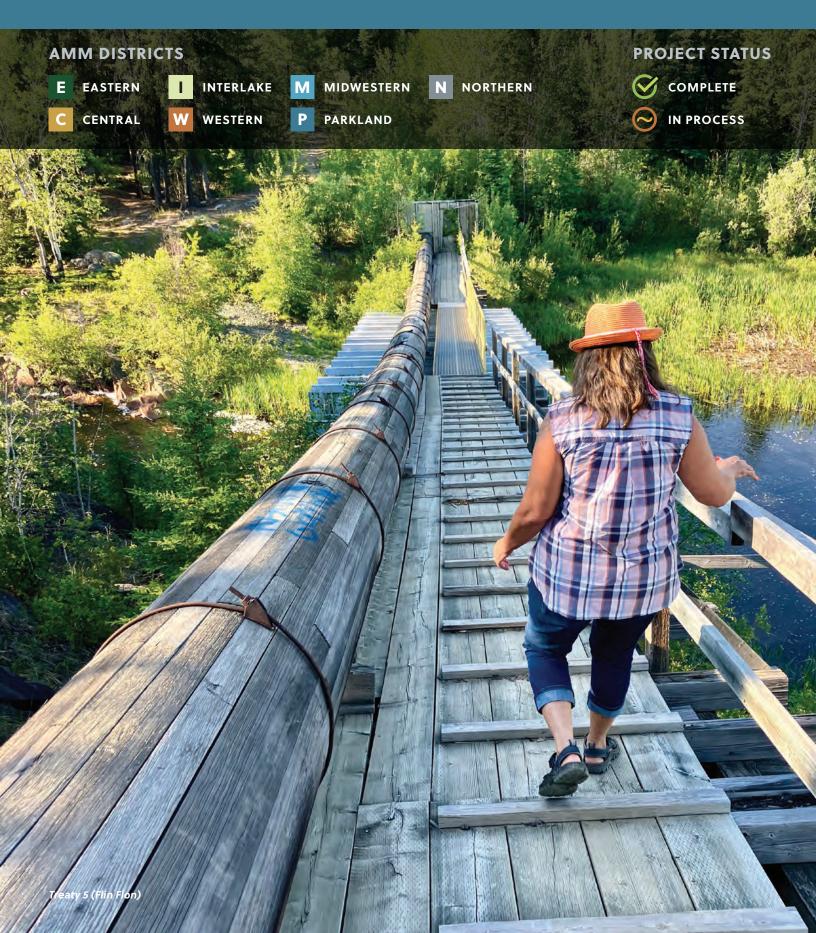

- 1. Enhance physical, psychological, and social well-being of participants through awareness and use of the trails, and related facilities & programs through increased opportunities for movement (physical activity) for all levels of ability, and the development of physical literacy.
- **2.** Enhance the environmental perspective of trail users through intentionally directed educational experiences devoted to responsible use and conservation of natural resources.
- **3.** Support the economy through tourism and other related activities through targeting of both financial and social impacts of trail projects.
- **4.** Enhance the Winnipeg trail network through the development of new greenways, preservation of existing greenways, or upgrade existing trail sections into new greenways. Greenway enhancement must align with current best practices.

CREATING REASONS TO VISIT

This trailhead is more than just a rest stop—it's a place where history, nature, and community come together. Positioned along Highway 59, it invites travelers to pause, explore, and connect with the rich Métis and Indigenous heritage of our region. With features like an electric vehicle charging station, seating, and interpretive signage, it enhances accessibility to the Trans Canada Trail while promoting sustainable tourism. By transforming an unused space into a meaningful gathering place, this project creates new opportunities for recreation, learning, and cultural appreciation for all who visit.

DEVELOPING STRONG PARTNERSHIPS

The South Whiteshell Trail Association is very pleased with the ongoing development of a trail around the East end of Falcon Lake which will connect the North and South shores of the lake. We are especially proud of the positive relationships developed with Manitoba Parks and Peguis First Nation as a result of the consultation process of this project. This trail will be a great asset to the Whiteshell community opening up a pristine part of the Canadian Shield to hikers, runners and cyclists of all levels who want to challenge themselves.

AMM DISTRICT TM GRANT FUNDING

\$25,000

DESCRIPTION:

New Trail / Enhancements

ACTIVITIES:

New trail connections

KILOMETRES:

Developed: 0.3 Upgraded: 0.8 Maintained: 0

OTHER FUNDS:

Projected: \$60,000 Actual: \$60,000

IN-KIND:

Projected: \$ - Actual: \$ -

VOLUNTEERS:

Number: 0 Hours: 0

IMPACTS:

Social: This project enhances the social fabric of Winnipeg and Manitoba by providing enhanced accessibility to natural spaces.

Economic: Local designers and contractors were used in the execution of this project.

Environmental: The Buffalo Crossing building which is the trailhead of this new section of trail will be a prime example of sustainable design and construction.

EQUIPPING FOR SUCCESS!

Funding from Trails Manitoba over the past two years has played a vital role in developing and maintaining the Bison Butte trails, ensuring safe and high-quality trails for all users. Essential equipment, such as lawn mowers and maintenance tools, is critical for preserving the integrity of the trails year-round. The mountain bike trails, located conveniently close to the city, provide a space for community engagement, athletic training, events, and outdoor recreation. They promote health and well-being for riders of all skill levels, from beginners to elite athletes. These trails foster local economic growth, attract visitors, and encourage an active lifestyle. In addition, the trails have brought together a community of like-minded individuals who contribute their time and expertise to the upkeep and progression of the trail system. Continued investment ensures their sustainability, benefiting generations to come.

DAUPHIN RECREATION SERVICES

Maamawi Multi-Use Trail

PROJECT STATUS

AMM DISTRICT TM GRANT FUNDING

\$75,000

DESCRIPTION:

New Trail / Enhancements

ACTIVITIES:

New multi-use trail development

KILOMETRES:

Developed: 1.8 Upgraded: 0 Maintained: 0

OTHER FUNDS:

Projected: \$695,000 Actual: \$695,000

IN-KIND:

Projected: \$30,000 Actual: \$30,000

VOLUNTEERS:

Number: 5 Hours: 50

IMPACTS:

Social: A connected trail system encourages greater social interaction as people are able to easily move through different parts of the city, accessing parks, schools, businesses, and recreational areas.

Economic: Dauphin expects to see increased tourism due to the new trail system, which in turn supports the local economy.

Environmental: Provide the community with more opportunities to experience nature, which can foster environmental awareness and a sense of responsibility towards local conservation efforts.
